STATE OF SOUTH CAROLINA  
JOINT CITIZENS AND LEGISLATIVE COMMITTEE ON CHILDREN

Fellow South Carolinians:

As South Carolina continues to grapple with the COVID-19 pandemic, more extensive data have become available to help measure the impact on some of the state's most vulnerable residents – children. While the Joint Citizens and Legislative Committee on Children produces an annual Data Reference Book, we are pleased to provide this special-edition Data Reference Book to reflect the well-being of South Carolina children during the COVID-19 pandemic.

Organized in the same manner as our traditional Data Reference Book, the COVID-19 edition contains data showing the extent to which the pandemic created new problems and exacerbated existing difficulties affecting children's well-being. Most of the data used to inform this report were collected through June 2021; we included more recent data when available and as noted in the report. While some data, such as those reflecting the surge of COVID-19 cases during the late summer and early fall of 2021, were not available during the data collection for this report, the Committee will address those numbers in a future publication.

The data contained herein indicates South Carolina children face challenges and barriers to becoming successful citizens of our state, and the global health pandemic has made many measures worse. We encourage you to consider the data in the larger context of the COVID-19 pandemic and its effects on multiple facets of life. This report serves only to compile and share the data; readers should exercise caution when considering the data's implications and contemplating policy recommendations for future study and action.

Our thanks to all those who contributed to compiling this report. May it serve our children well.

# Reported COVID-19 Cases in South Carolina As of September 30, 2021

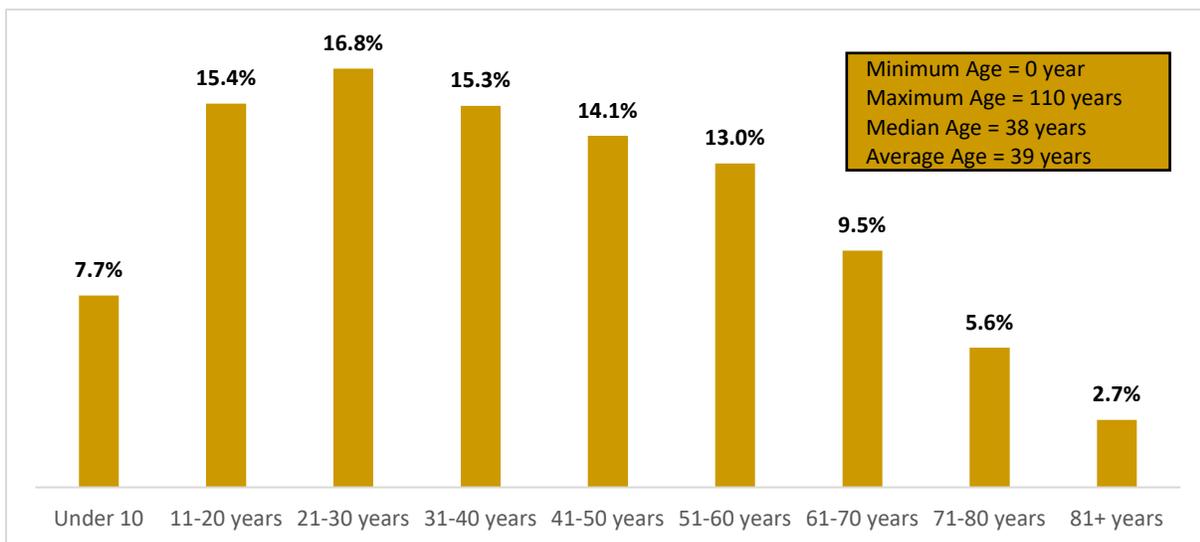

## COVID-19 IN SOUTH CAROLINA

- Tests: 10,988,976, percent positive: 10.2%
- Cases: 863,714
- Hospitalizations: 29,372
- Deaths: 12,856

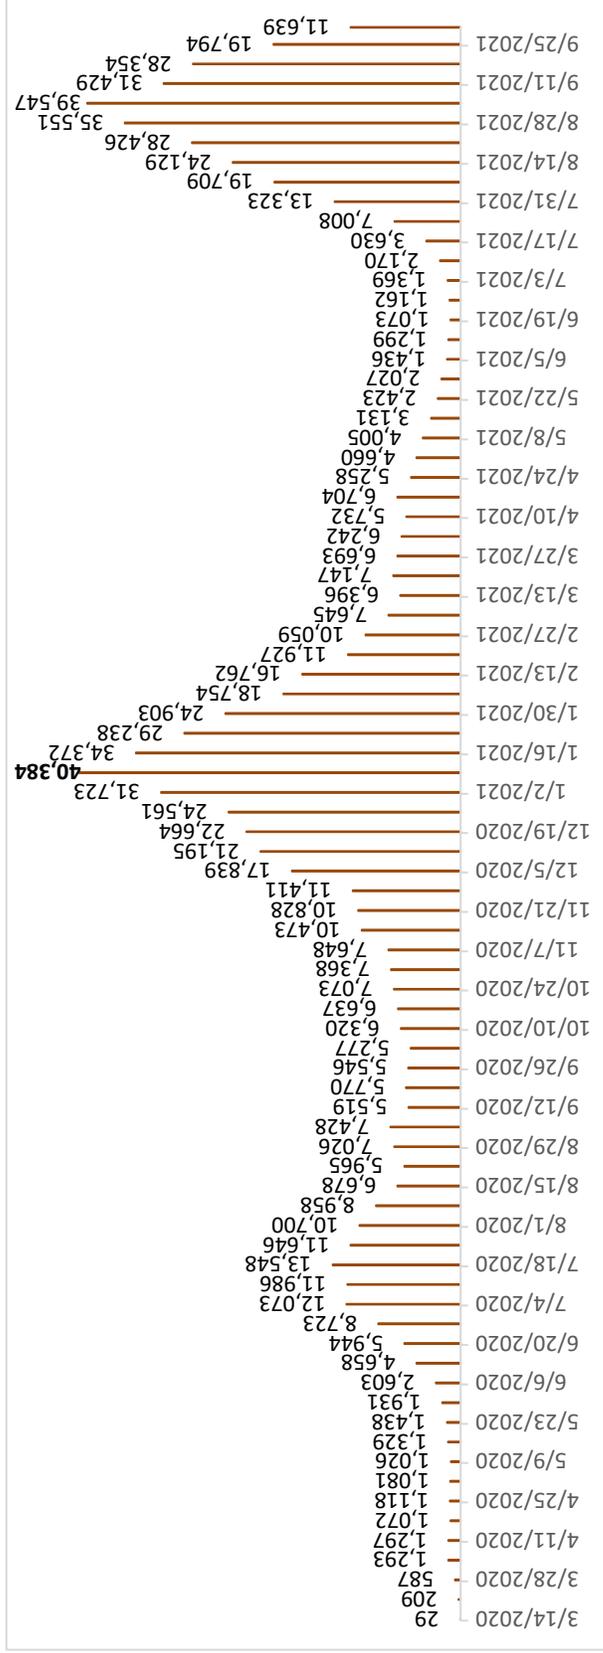

## REPORTED COVID-19 CASES IN SOUTH CAROLINA BY SEX, RACE AND ETHNICITY

## REPORTED COVID-19 CASES IN SOUTH CAROLINA BY AGE GROUP AND AGE-RELATED INFORMATION

**REPORTED COVID-19 CASES IN SOUTH CAROLINA BY WEEK OF REPORT (MARCH 4, 2020 TO SEPTEMBER 30, 2021)**

**DATA SOURCE**

S.C. Department of Health and Environment Control, Coronavirus Disease 2019 (COVID-19), <https://scdhec.gov/covid19> (data as of September 30, 2021, last visited October 7, 2021).

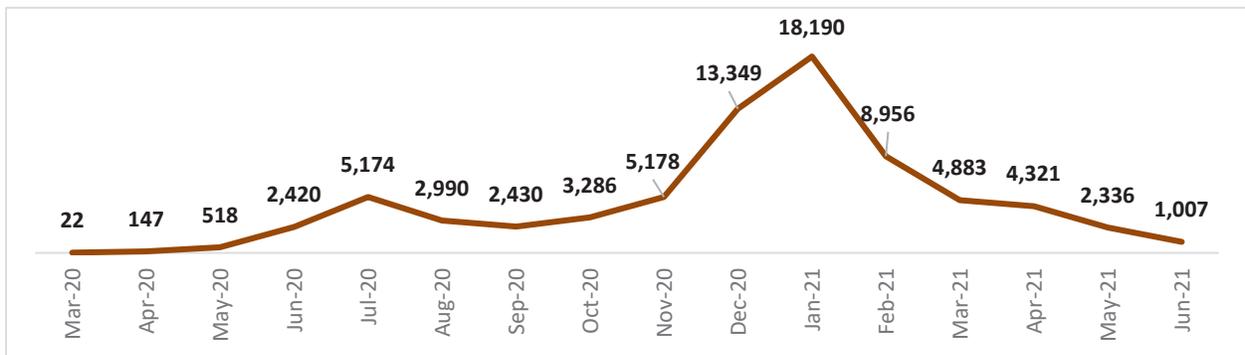

# Reported COVID-19 Cases among South Carolina Children March 2020-June 2021

## S.C. REPORTED COVID-19 CASES AMONG CHILDREN (MARCH 2020-JUNE 2021)

**75,207** reported COVID-19 cases among children under age 18,  
**12.5%** of total reported cases in South Carolina.  
**35,514** reported COVID-19 cases among children March 2020-December 2020.  
**39,693** reported COVID-19 cases among children January 2021-June 2021.  
**348** COVID-19 hospitalizations.  
**8** COVID-19 deaths.  
**3,863** maternal morbidity cases related to COVID-19.

## S.C. REPORTED COVID-19 CASES AMONG CHILDREN BY MONTH

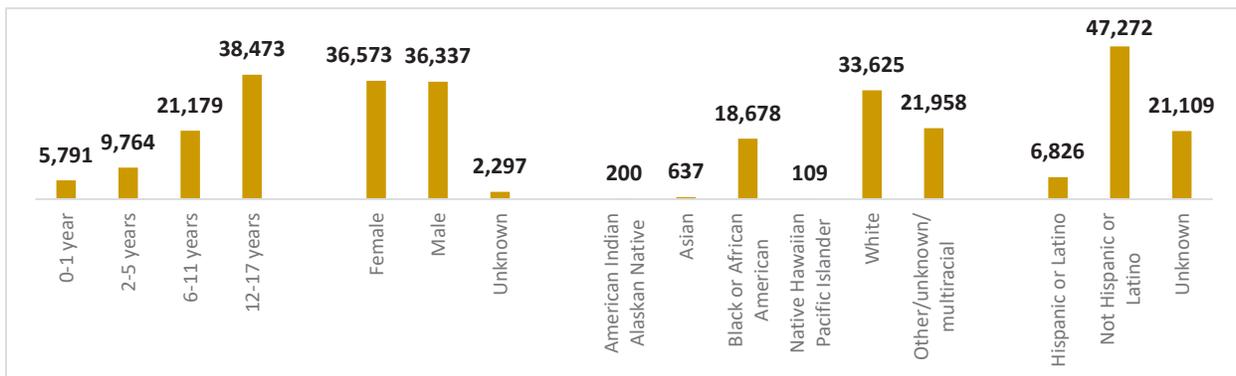

## COMPARED TO NATIONAL DATA

S.C. reported COVID-19 cases per 100,000 children (cumulative child cases as of June 2021, 0-17 years):  
**6,727 per 100,000 children**

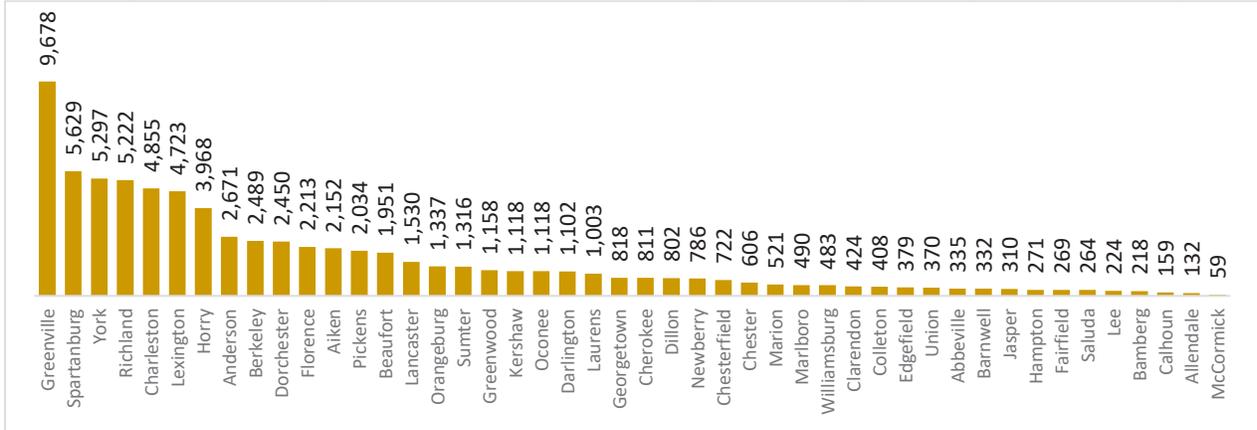

National estimated rate:  
**5,374 per 100,000 children**

**S.C. REPORTED COVID-19 CASES ASSOCIATED WITH SCHOOLS BY COUNTY**

## DATA SOURCES

1. South Carolina data: S.C. Department of Health and Environment Control (DHEC), unpublished report generated in August 2021.

*Note.* Maternal COVID-19 morbidity is defined as a COVID-19 patient who was pregnant at the time that the case (confirmed or probable) was reported to DHEC. The maternal COVID-19 morbidity reported in this report included data from the enhanced surveillance of COVID-19 among pregnant women that DHEC has put in place since Spring 2021 in collaboration with the CDC. Data from the enhanced surveillance include pregnancies that may not have been identified during the initial report or case interview.

Data about school association were collected from case investigations resulting from positive COVID-19 tests reported to DHEC. The tests may have been administered and/or reported by the schools or by healthcare providers, laboratories or other testing sites.

2. Compared to national data: The S.C. reported rate of COVID-19 cases per 100,000 children was calculated with the total number of reported COVID-19 cases among children ages 0-17 as of June 2021 divided by the 2019 S.C. child population and multiplied by 100,000. Source of child population: DHEC, Population Data, year of 2019, <http://scangis.dhec.sc.gov/scan/bdp/tables/populationtable.aspx> (last visited, August 18, 2021).

National data: American Academy of Pediatrics and Children’s Hospital Association, Children and COVID-19: State Data Report. Summary of publicly reported data from 49 states, NYC, DC, PR, and GU. Version: 8/12/2021. The national rate cited in this report (i.e., 5,374 per 100,000 children) was based on the reported data from July 1, 2021 (see Appendix Table 2A of the State Data Report: Summary of Child Case Data from 4/16/20-8/12/21),

<https://downloads.aap.org/AAP/PDF/AAP%20and%20CHA%20-%20Children%20and%20COVID-19%20State%20Data%20Report%208.12%20FINAL.pdf> (last visited, August 18, 2021).

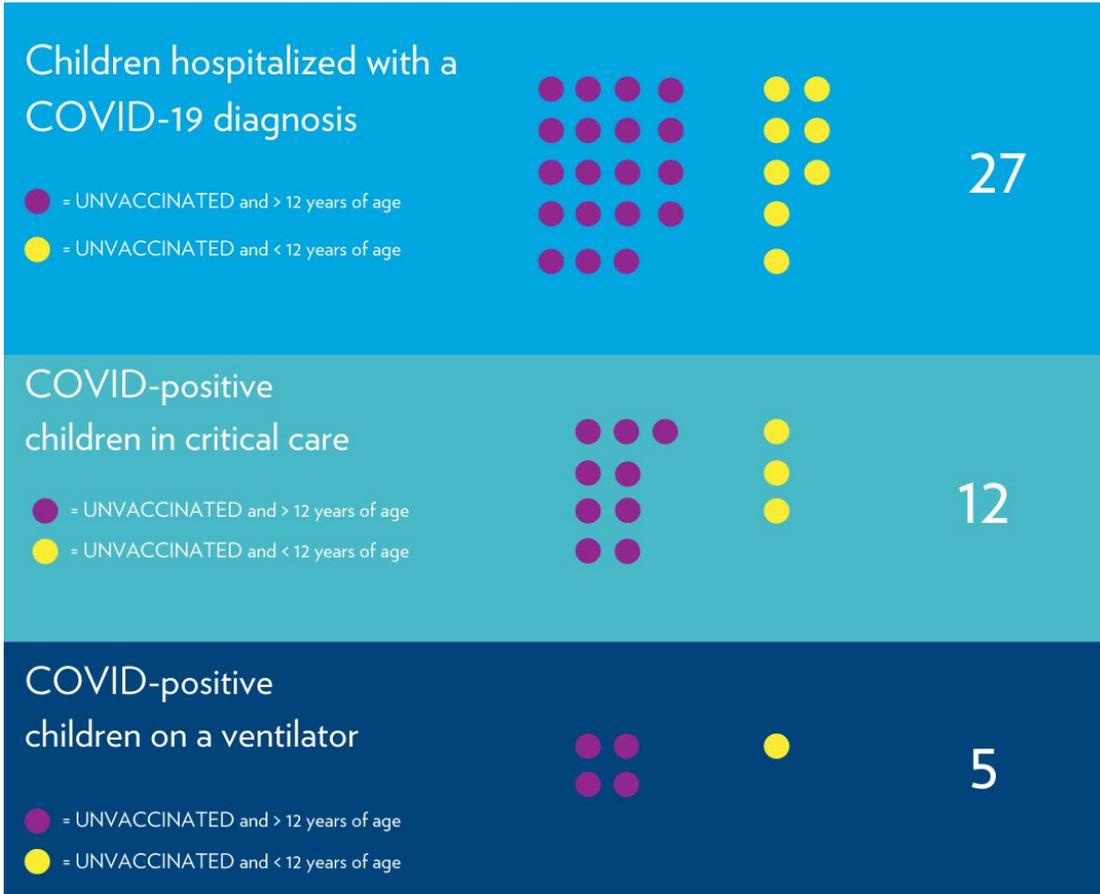

*Note.* The numbers in this national report represent cumulative counts since states began reporting. The data are based on how public agencies collect, categorize and post information. All data reported by state/local health departments are preliminary and subject to change and reporting may change over time. Notably, in the summer of 2021, some states have revised cases counts previously reported, begun reporting less frequently, or dropped metrics previously reported. Readers should consider these factors. States may have additional information on their websites. Definition of “child”: Age ranges reported for children varied by state (0-14, 0-17, 0-18, 0-19, and 0-20 years).

# COVID-19 Update

## Thursday, September 30, 2021

All hospitalized children are unvaccinated.

Children's Hospitals Occupancy Metrics September 30, 2021	All Four Children's Hospitals
<b>Total # of Children on ECMO</b> [Extracorporeal membrane oxygenation – heart/lung life support machine]	<b>1</b>
<b>Total # of Children Holding in Emergency Department</b>	<b>8</b>
<b>% of Pediatric Intensive Care Unit Beds Occupied</b>	<b>17% - 93% full</b>
<b>% of Staffed Beds Occupied</b> [Beds with nurses to staff, excludes emergency department]	<b>87% - 100% full</b>

The South Carolina Children's Hospital Collaborative provided COVID-19 daily reports from August 2021-October 2021. The South Carolina Children's Hospital Collaborative represents the four children's hospitals in South Carolina: McLeod Children's Hospital in Florence, MUSC Shawn Jenkins Children's Hospital in Charleston, Prisma Health Children's Hospital-Midlands in Columbia, and Prisma Health Children's Hospital-Upstate in Greenville. All four children's hospitals experienced an increase in the number of children requiring hospitalization from COVID-19. The data presented above were daily counts, not accumulative counts over time.

## Family Court Hearings and Continuances on Child Protection Cases

### S.C. HEARINGS AND CONTINUANCES ON CHILD PROTECTION CASES

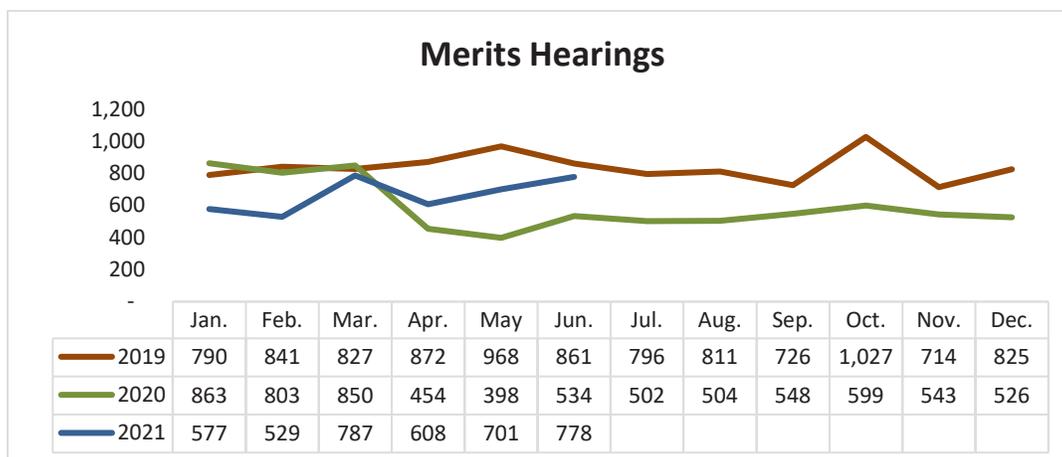

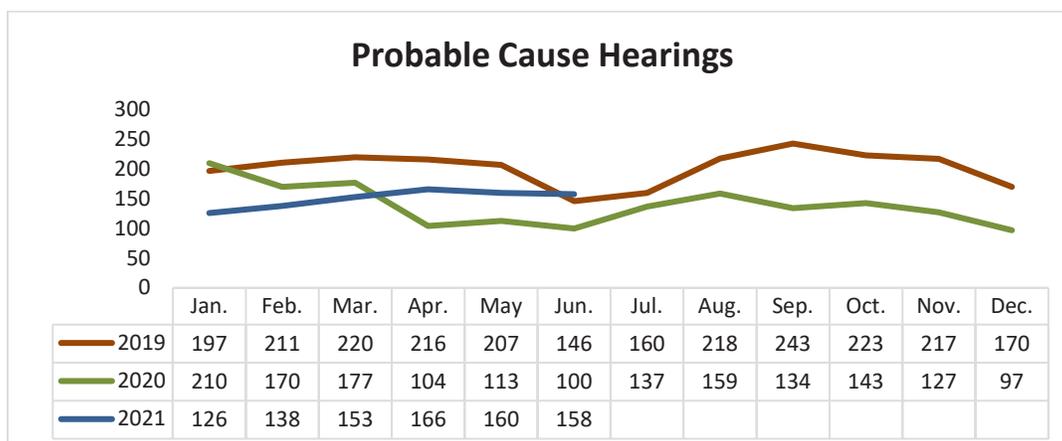

**15,029** probable cause, merits, judicial review, and permanency planning hearings were scheduled in 2020, **6,037** or **29% decrease** from 2019.

- **42%** of the scheduled probable cause, merits, judicial review, and permanency planning hearings were continued in 2020, **8%** (continuance rate) *increase* from 2019.

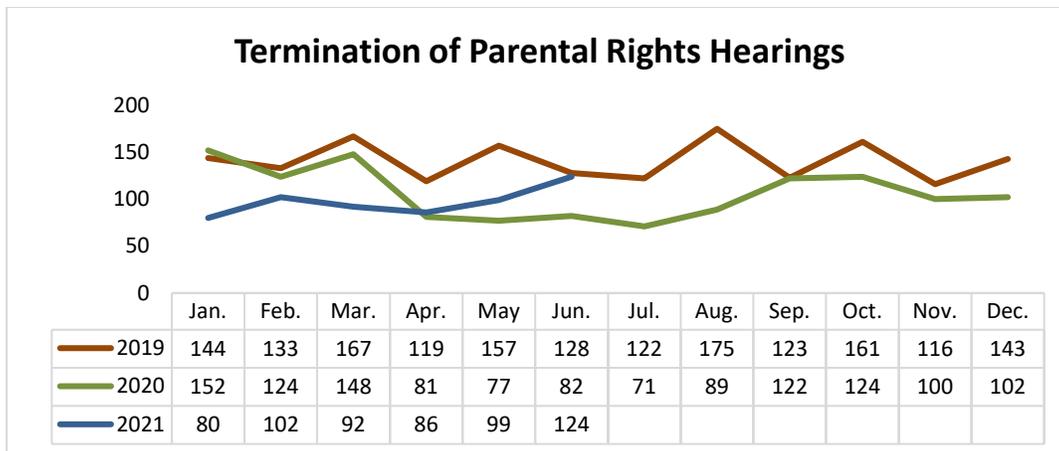

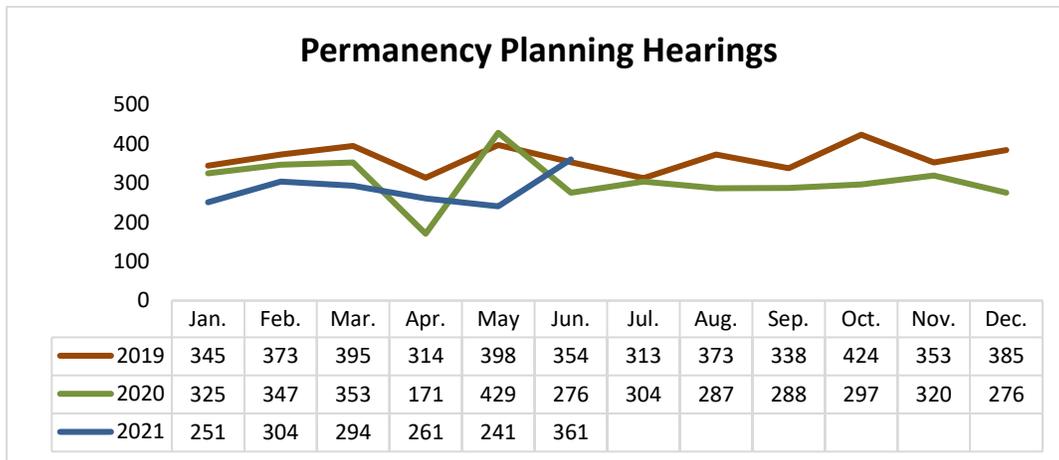

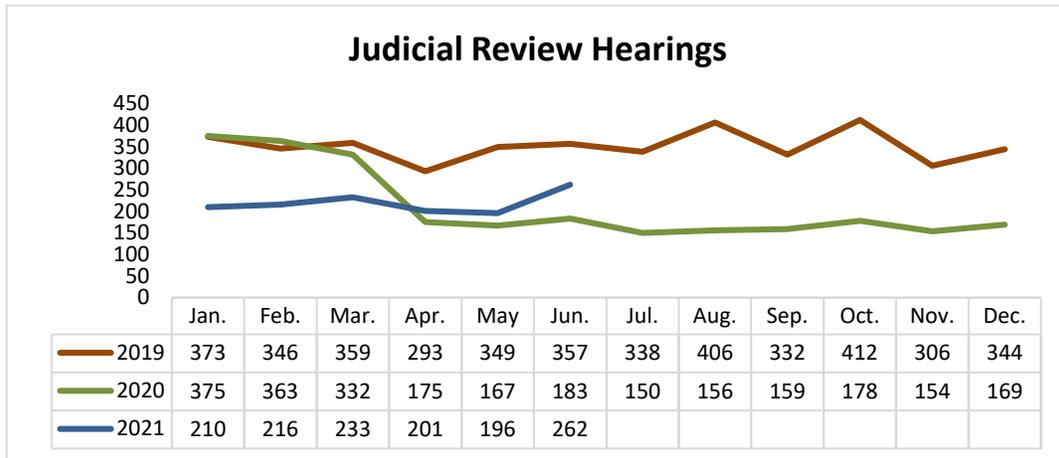

**1,272** termination of parental rights (TPR) merits and status hearings were scheduled in 2020, **416** or **25% decrease** from 2019.

- **49%** of the scheduled TPR merits and status hearings were continued in 2020, **3%** (continuance rate) *increase* from 2019.

### S.C. NUMBER OF HEARINGS ON CHILD PROTECTION CASES BY TYPE AND MONTH

# Child Welfare Indicators

## DATA SOURCE

1. Children’s Law Center, University of South Carolina School of Law. Court Liaisons Program, unpublished report generated in August 2021.

## Child Welfare Indicators

2. For the South Carolina family court and child welfare systems, the pandemic started at some point in mid-March 2020 and continues today although several measures, policies, and procedures have been put into place to mitigate the challenges caused by the pandemic. The child welfare system adapted to the pandemic by incorporating virtual platforms to continue much needed meetings with local, state and federal stakeholders. The family court system adapted as well by using virtual platforms to conduct both state and federally required child protection proceedings, albeit at a much slower pace. These changes were not without challenges. The family court system quickly realized that internet access varied in the state, with rural and less populated areas having the most limited services and opportunities. These technological challenges limited some defendant parents' ability to participate fully in court hearings. To ensure technology worked well before starting a hearing, judges often required that cases be scheduled in much longer time blocks than pre-pandemic scheduling to ensure technological capabilities were sufficient to successfully conduct a court hearing. In small counties where caseload demands were not as great, this was not as much of a problem. However, in medium to large counties with high caseloads, fewer cases were docketed because of the additional time it took to conduct a hearing, and, as a result, backlogs and overdue hearings began to pile up, increasing the time it takes for children to achieve permanency. The South Carolina family court and child welfare systems experienced a significant reduction in the number of cases filed and heard in virtually every hearing type, from probable cause hearings or initial merits hearings to termination of parental rights hearings. Probable cause hearings are not affected by court time availability as they are emergency hearings and receive priority. However, the decrease in the number of probable cause hearings is mostly attributed to school and day care closures. Administrators and teachers at educational settings are often the top reporters of alleged child abuse and neglect. Professionals working in schools and day care facilities are required to report child abuse and neglect. Due to those closures during the pandemic, fewer professionals could observe children and youth and make those reports, which corresponds to the significant decrease in the number of emergency probable cause hearings held.
3. The South Carolina courts reduced the available number of court hours in a few ways: (1) court closure during the second half of March 2020 and the entire month of April 2020, except for emergency hearings; (2) there were a significant number of county court closures due to local COVID-19 breakouts, which continue to this day, 16 months since the beginning of the pandemic; (3) increased time needed for cases to ensure technology was sufficient to conduct a court hearing, which reduced the number of cases that could be docketed, creating a backlog effect particularly in medium to large counties with moderate to heavy caseloads; (4) South Carolina Chief Justice Beatty ordered that court room space be cleaned and sanitized between hearings to reduce the spread of germs or harmful airborne substances.

## Child Care

### S.C. CHILD CARE FACILITIES BY OPERATIONAL STATUS

On January 4, 2021, **2,394** child care facilities regulated by the South Carolina Department of Social Services' child care licensing were open and active. In 2020, **2,107** or **88%** of the facilities were also open and active, **140** or **6%** were closed, and **147** or **6%** new facilities were opened. The table below shows a net retention of **94%** of the child care facilities (i.e., active and new facilities) in 2020 since COVID-19.

Operational Status	Number of Child Care Facilities	Percent
Active in 2020	2,107	88%
Closed in 2020	140	6%
Newly opened in 2020	147	6%
<b>Total</b>	<b>2,394</b>	<b>100%</b>

### S.C. CHILD CARE FACILITIES BY TYPE

Facility Type	Operational Status	Number of Child Care Facilities
Child care center	Active in 2020	1,478
	Closed in 2020	88
	Newly opened in 2020	95
Family child care home	Active in 2020	563
	Closed in 2020	45
	Newly opened in 2020	52
Group child care home	Active in 2020	66
	Closed in 2020	7
<b>Total</b>		<b>2,394</b>

### S.C. CHILD CARE FACILITIES BY CAPACITY

Operational Status	Capacity
Active in 2020	173,579
Closed in 2020	9,877
Newly opened in 2020	10,608
<b>Total</b>	<b>194,064</b>

*Note.* Due to COVID-19, a significant number of child care facilities operating in 2020 reported being under enrolled compared to the months before the pandemic. The difference in child care capacity is a net gain of 731 children.

# Child Welfare Indicators

## S.C. CHILD CARE FACILITIES BY TYPE AND CAPACITY

<b>Operational Status</b>	<b>Capacity</b>
<b>Active in 2020</b>	<b>173,579</b>
Child care center	169,462
Family child care home	3,319

Family child care home	295
<b>Total</b>	<b>194,064</b>

## DATA SOURCE

1. Yvonne & Schuyler Moore Child Development Research Center, University of South Carolina College of Education, unpublished report generated in August 2021.
2. The tables presented in this section only use two data points – January 2020 and January 2021. The analysis was conducted based on all facilities listed on the [sccildcare.org](http://sccildcare.org) website on January 4, 2021 in comparison to child care facilities on the same website on January 4, 2020. These include all the programs regulated by the South Carolina Department of Social Services’ child care licensing, including child care centers, family child care homes, and group child care homes. The website data on January 4, 2021 displays the operational status of facilities as Open, Closed or Unknown.
3. Child care capacity: The changes in the child care facility market have impacted overall child care capacity as displayed in the tables above. The capacity is the maximum number of children that a child care facility is licensed to serve and does not reflect actual child care slots offered in the facilities, which in most cases is less than the licensed capacity. COVID-19 further widened this gap, as a significant portion of child care facilities operating in 2020 reported being under enrolled compared to the months before the pandemic.

## Education

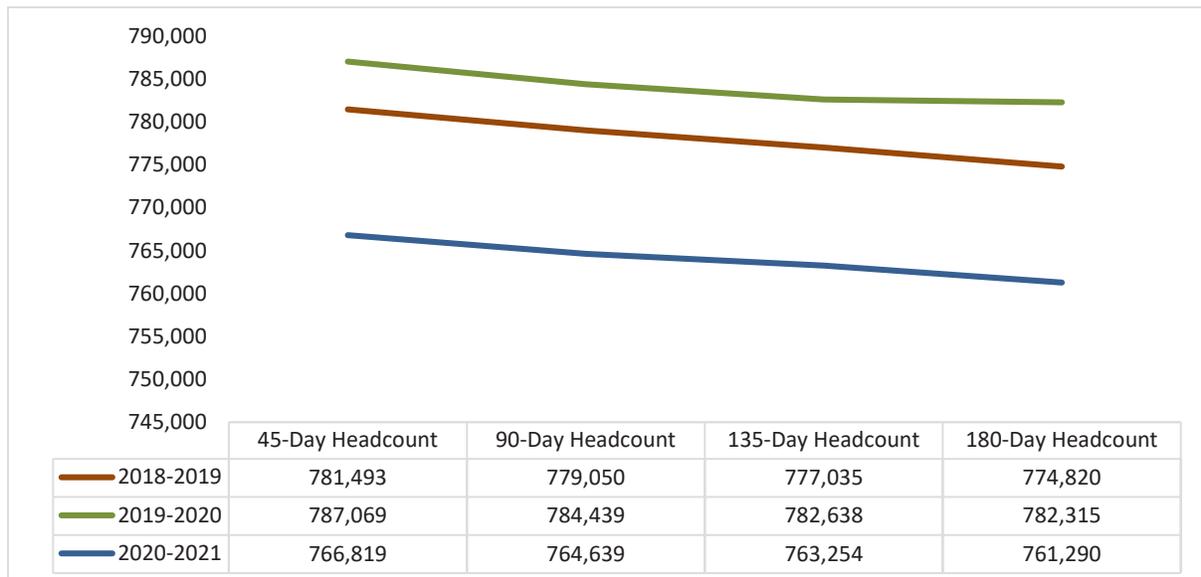

### S.C. PUBLIC SCHOOL HEADCOUNTS

**761,290** actively enrolled students in South Carolina public school districts in 2020-2021 school year (180-day headcount), **13,530** or **2% decrease** from 2018-2019 (180-day headcount):

- **22,434** or **3%** of students enrolled in child development programs (PK) in 2020-2021, **6,022** or **21% decrease** from 2018-2019.
- **52,444** or **7%** of students enrolled in kindergarten (5-year-old) in 2020-2021, **3,309** or **6% decrease** from 2018-2019.
- **166,634** or **22%** of students enrolled in Grades 1-3 in 2020-2021, **6,180** or **4% decrease** from 2018-2019.
- **299,262** or **39 %** of students enrolled in Grades 4-8 in 2020-2021, **2,882** or **1% decrease** from 2018-2019.
- **220,516** or **29%** of students enrolled in Grades 9-12 in 2020-2021, **4,863** or **2% increase** from 2018-2019.

**53,689** teachers in S.C. public school districts in 2020-2021 school year, **956** or **2% increase** from 2018-2019.

*Note.* Student headcount is a "snap-shot" count of actively enrolled students that is taken at different points during a year.

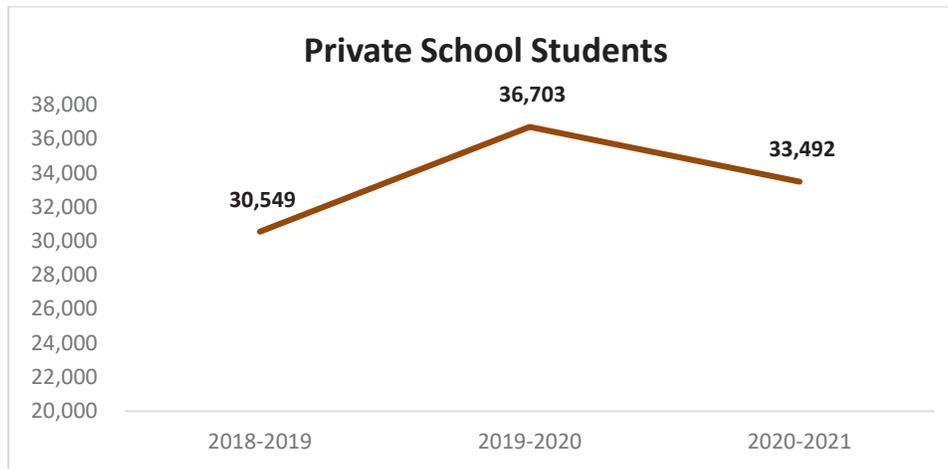

# Education Indicators

## S.C. PRIVATE SCHOOL HEADCOUNTS

**33,492** students in South Carolina private schools in 2020-2021 school year, **2,943** or **10% increase** from 2018-2019.

**4,177** teachers in South Carolina private schools in 2020-2021 school year, **160** or **4% decrease** from 2018-2019.

## S.C. HOMELESS STUDENTS

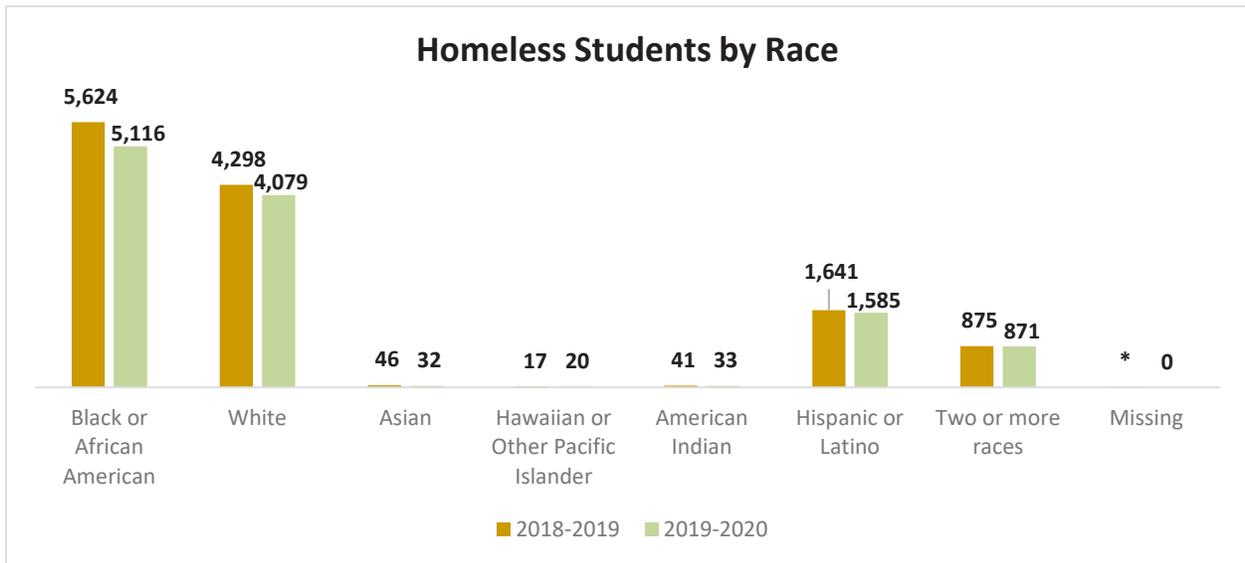

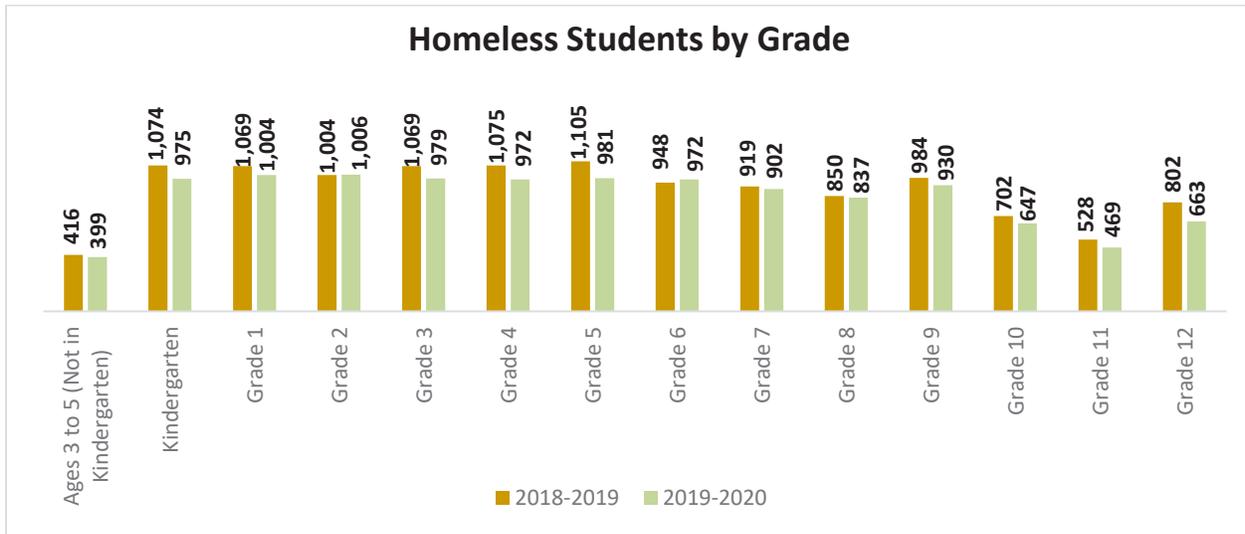

**11,736** students enrolled in a South Carolina public school district during the 2019-2020 school year were identified as homeless students, **809** or **6% decrease** from 2018-2019.

*Note.* The state educational agency (SEA) level McKinney-Vento student data is the unduplicated number of identified homeless students enrolled in public schools at any time during the school year. All students are counted only once.

The Federal McKinney-Vento Homeless Assistance Act defines students who lack a fixed, regular, and adequate nighttime residence as homeless. This includes students who: share the housing of other persons due to loss of housing, economic hardship, or a similar reason (sometimes referred to as “doubled-up”); live in motels, hotels, trailer parks, or camping grounds due to lack of alternative adequate accommodations; live in emergency or transitional shelters; are abandoned in hospitals; have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; live in cars, parks, public spaces, abandoned buildings, substandard housing (e.g., housing that lacks any one of the fundamental utilities, does not have a working kitchen or plumbing, is overcrowded, or infested), bus or train stations, or similar settings; migratory children who qualify as homeless because they are living in circumstances described above; and unaccompanied youth who qualify as homeless because they are living in circumstances described above. Students whose living situations meet this definition have educational rights and are eligible to receive services under the McKinney-Vento Act.

## S.C. SCHOOL REPORT CARD DATA (PUBLIC SCHOOL DISTRICTS)

	2018-2019	2019-2020	2020-2021
English learners (EL) students	61,507	64,386	63,885
Percent of students served by gifted and talented program	20.9	20.2	19.9
Students ages 3 to 17 with disabilities in special education and related services	101,618	104,359	101,792
Percent of students retained	1.4	1.4	1.3
Dropout rate	1.5	2.2	1.7
Dropout recovery rate	5.7	5.9	6.1
Four-year graduation rate	81.1	82.2	83.3
Percent of students from prior year graduating class enrolled in a two- or four-year college or technical college pursuing an associate's degree, certificate, or diploma in Fall following graduation	69.5	67.2	64.3

*Note.* Dropout rate measures annual rate of students in grades 7 through 12 who leave the school or district for any reason, other than death, prior to graduation without transferring to another school, district or institution. Dropout recovery rate reflects the proportion of students in grades 9 through 12 from each school and district who, having dropped out during a particular academic year, reenrolled in a public school or reenrolled in an Adult Education high school diploma granting program within the first 135 days of the next academic year.

Note on missing data: On March 26, 2021, the U.S. Department of Education waived federal accountability requirements and granted flexibility in administering assessments due to COVID-19. The results displayed for 2020-2021 should not be compared to those of other years due to the testing limitations as a result of the pandemic. In addition, these results may be incomplete and may not be representative of the make-up of the state, district, or school population.

## MEALS SERVED BY PROGRAMS FOR S.C. STUDENTS

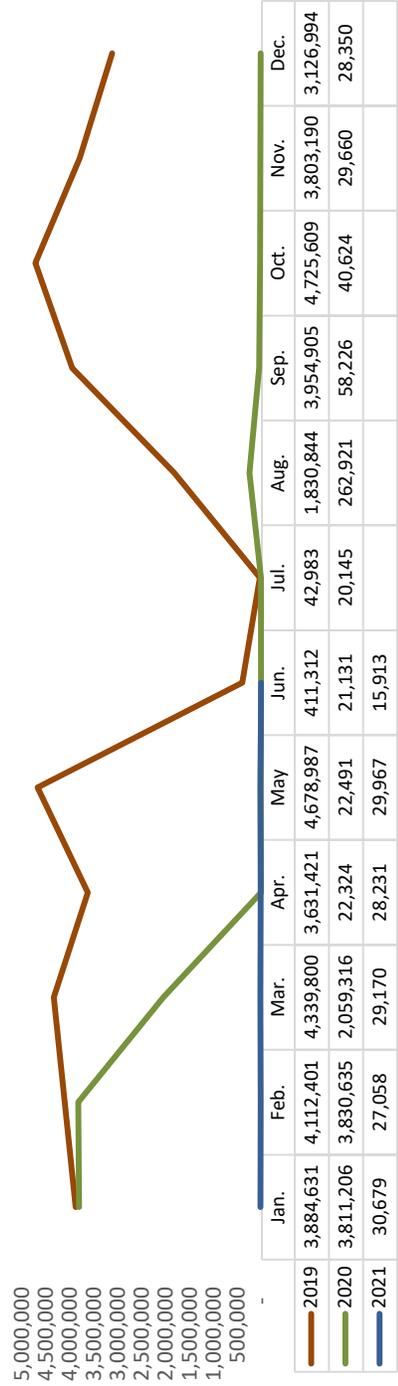

<b>Free and Reduced Meals Served</b>	<b>2019</b>	<b>2020</b>	<b>2021 (Data as of June)</b>	<b>2019 vs. 2020</b>
National School Breakfast Program	38,543,077	10,207,029	161,018	-74%
Breakfast served by Seamless Summer Option (SSO) Program	511,813	19,453,750	15,919,721	+3,701%
National School Lunch Program	60,963,970	16,142,734	302,940	-74%
Lunch served by SSO Program	839,749	24,625,474	24,674,685	+2,832%
Summer Food Service Program	2,566,786	19,218,988	17,990,950	+649%
<b>Total Meals Served</b>	<b>103,425,395</b>	<b>89,647,975</b>	<b>59,049,314</b>	<b>-13%</b>

*Note.* The Seamless Summer Option (SSO) program combines features of the National School Lunch Program, the School Breakfast Program, and the Summer Food Service Program. The program is designed to encourage more school food authorities (SFAs) to provide meals during summer and other school vacation periods. The SSO program reduces paperwork and makes it easier for SFAs to provide meals to children in low-income areas during the summer. Based on the data received, all meals were served free of charge by the program during the timeframe.

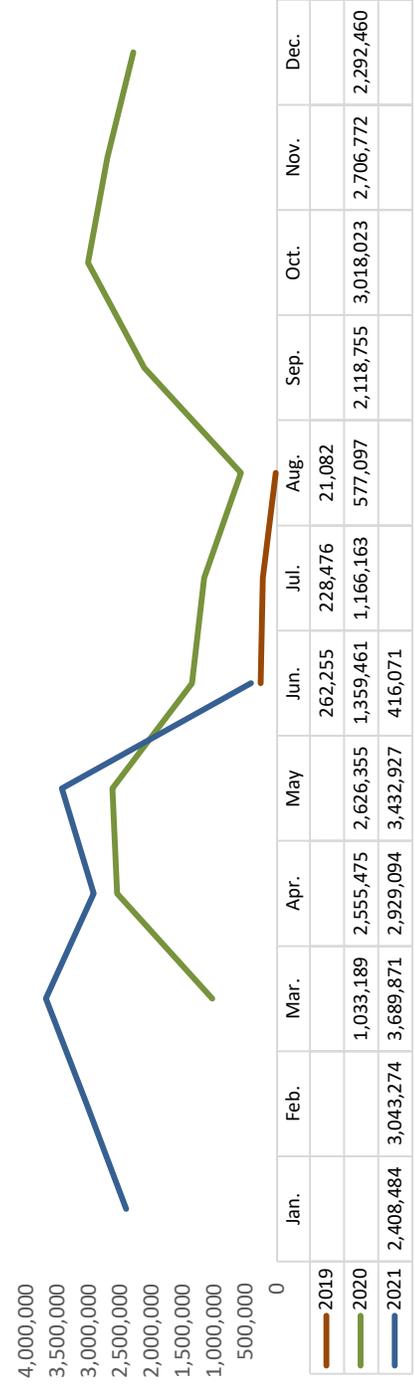

The Summer Food Service Program (SFSP) is a federally-funded, state-administered program. SFSP reimburses program operators who serve free healthy meals and snacks to children in low-income areas. Based on the data received, all meals were served free of charge by the program during the timeframe.

## DATA SOURCES

1. S.C. public school headcounts: S.C. Department of Education, student headcount is a "snap-shot" count of actively-enrolled students taken at three points during the year: the 45th day, 135th day, and 180th day. These counts satisfy state and federal data reporting needs.  
**<https://ed.sc.gov/data/other/student-counts/active-student-headcounts/>** (last visited, October 5, 2021). Headcounts for 90th day were collected from S.C. Department of Education, unpublished report generated in August 2021.  
Number of teachers: S.C. Department of Education, SC School Report Card, State of SC, 2018-2019: **<https://screportcards.ed.sc.gov/overview/?q=eT0yMDE5JnQ9UyZzaWQ9MDAwMA>**  
2019-2020: **<https://screportcards.ed.sc.gov/overview/?q=eT0yMDIwJnQ9UyZzaWQ9MDAwMA>**  
2020-2021: **<https://screportcards.ed.sc.gov/overview/?q=eT0yMDIxJnQ9UyZzaWQ9MDAwMA>** (last visited, October 8, 2021).
2. S.C. private school headcounts: S.C. Department of Education, Private School Headcounts, **<https://ed.sc.gov/data/other/student-counts/private-school-headcounts/>** The Private School Report is sent out on a yearly basis for teacher and student count for K5 through 12<sup>th</sup> grade (last visited, October 5, 2021).
3. S.C. homeless students: S.C. Department of Education, unpublished report generated in August 2021. Definition of homeless students was cited from S.C. Department of Education website: **<https://ed.sc.gov/policy/federal-education-programs/essa-title-ix-part-a-mckinney-vento-homeless-assistance-act/>** (last visited, December 6, 2021).
4. English learners students: S.C. Department of Education, SC School Report Card, State of SC, English Learners' Progress, 2018-2019: **<https://screportcards.ed.sc.gov/overview/academics/english-language-learners-progress/?q=eT0yMDE5JnQ9UyZzaWQ9MDAwMA>**  
2019-2020: **<https://screportcards.ed.sc.gov/overview/academics/english-language-learners-progress/?q=eT0yMDIwJnQ9UyZzaWQ9MDAwMA>**  
2020-2021: **<https://screportcards.ed.sc.gov/overview/academics/english-language-learners-progress/?q=eT0yMDIxJnQ9UyZzaWQ9MDAwMA>** (last visited, October 5, 2021).
5. Percent of students served by gifted and talented program, percent of students retained: S.C. Department of Education, SC School Report Card, State of SC, Results of Teacher, Student, and Parent Opinion Surveys, 2018-2019: **<https://screportcards.ed.sc.gov/overview/school-environment/school-quality/?q=eT0yMDE5JnQ9UyZzaWQ9MDAwMA>**  
2019-2020: **<https://screportcards.ed.sc.gov/overview/school-environment/school-quality/?q=eT0yMDIwJnQ9UyZzaWQ9MDAwMA>**  
2020-2021: **<https://screportcards.ed.sc.gov/overview/school-environment/school-quality/?q=eT0yMDIxJnQ9UyZzaWQ9MDAwMA>** (last visited, October 5, 2021).
6. Students ages 3 to 17 with disabilities in special education and related services: S.C. Department of Education, IDEA Child Count Data. These data are reflective of students with disabilities in special education and related services through Individualized Education Programs (IEPs) under the coverage of the Individuals with Disabilities Education Act, 2004. These counts would not include children with disabilities who do not have IEPs. **<https://ed.sc.gov/districts-schools/special-education-services/data-and-technology-d-t/data-collection-and-reporting/sc-data-collection-history/idea-child-count-data/>** (last visited, October 5, 2021).
7. Dropout rate and dropout recovery rate: S.C. Department of Education, SC School Report Card, State of SC, Graduation Rate, 2018-2019:

# Education Indicators

11. Children served by First Steps: South Carolina First Steps, unpublished report generated in September 2021.
12. South Carolina Palmetto Assessment of State Standards test scores: S.C. Department of Education, South Carolina Palmetto Assessment of State Standards (SCPASS), <https://ed.sc.gov/data/test-scores/state-assessments/scpalmetto-assessment-of-state-standards-pass/> (last visited, October 5, 2021).
13. South Carolina College-and Career-Ready Assessments test scores: S.C. Department of Education, SC READY, <https://ed.sc.gov/data/test-scores/state-assessments/sc-ready/> (last visited, October 5, 2021).
14. Meals served by programs for S.C. students: S.C. Department of Education, unpublished report generated in August 2021.

# Household Pulse Survey

## Household Pulse Survey - South Carolina and National Data Comparison

### WHAT IS THE HOUSEHOLD PULSE SURVEY?

The U.S. Census Bureau, in collaboration with multiple federal agencies, is in a unique position to produce data on the social and economic effects of coronavirus on American households. The Household Pulse Survey is designed to deploy quickly and efficiently, collecting data to measure household experiences during the coronavirus pandemic. Data is disseminated in near real-time to inform federal and state response and recovery planning. Phase 1 of the survey ran from April 23, 2020 through July 21, 2020; Phase 2 from August 19, 2020 through October 26, 2020; and Phase 3 from October 28, 2020 through March 29, 2021. Phase 3.1 of the Household Pulse Survey began April 14, 2021 and ended on July 5, 2021. Data collection for Phase 3.2 of the Household Pulse survey ran from July 21, 2021 to October 11, 2021. Data collection for Phase 3.3 of the survey is scheduled to begin in December 2021, with the first data product release expected later in the month.

### DATA SOURCES

1. Data selected and presented in this report were based on the analyzed data published by the National KIDS COUNT on the Household Pulse Survey, <https://datacenter.kidscount.org/data#USA/1/0/char/0/271> (last visited, October 7, 2021).
2. Household Pulse Survey (COVID-19), U.S. Census Bureau, <https://www.census.gov/programs-surveys/household-pulse-survey.html> (last visited, October 7, 2021).

Note. S indicates estimates suppressed when the effective sample size is less than 30 or the 90% confidence interval is greater than 30 percentage points or 1.3 times the estimate.

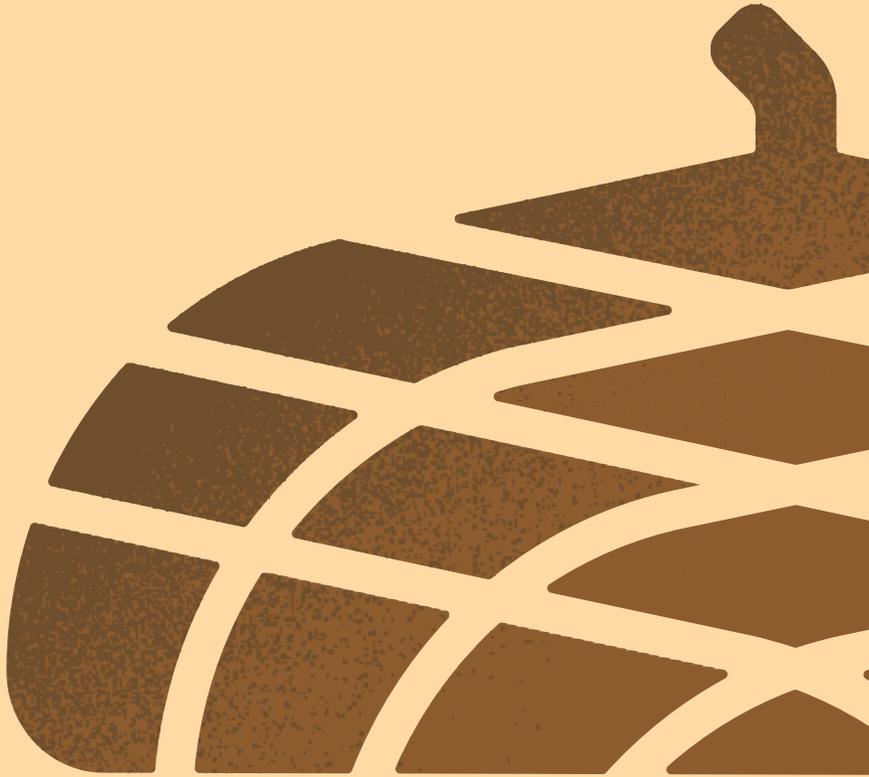

## Acknowledgments

The South Carolina Children during the COVID-19 Pandemic Data Reference Book produced by the Joint Citizens and Legislative Committee on Children is the result of countless hours of hard work, and the cooperation of many agencies and individuals. Much assistance was provided to the Committee with its data collection, analysis, research, policy review, and editing to ensure the well-being of South Carolina children during the COVID-19 pandemic is accurately and clearly presented.

The Committee expresses its appreciation to the many agency staff whose work contributed to this special edition Data Reference Book. The members of the Committee are especially grateful for the contributions and efforts of the following agencies:

The South Carolina Department of Health and Environmental Control  
The South Carolina Revenue and Fiscal Affairs Office  
The South Carolina Department of Social Services  
The Yvonne and Schuyler Moore Child Development Research Center  
The South Carolina Department of Mental Health  
The South Carolina Department of Alcohol and Other Drug Abuse Services  
The South Carolina Department of Health and Human Services  
The South Carolina Department of Juvenile Justice  
The South Carolina Department of Education  
The South Carolina First Steps

The Joint Citizens and Legislative Committee on Children extends its appreciation to the staff at the Children’s Law Center, University of South Carolina School of Law, for compilation of the Data Reference Book. In particular, we thank Michelle Dhunjishah, Director; Carolyn Morris, Assistant Director; Liyun Zhang, Research Scientist; Shealy Reibold, Senior Resource Attorney; Morgan Maxwell, Legislative Resource Attorney; Cody Lidge, Court Improvement Program Director; and Brittany Roberts, Law Clerk.

# Nurturing our state's future.
